CALYPSO

About Calypso

Calypso bathroom furniture is a UK industry-leading bathroom furniture supplier, part of the Woodstock Trading Company. We are a family-run business that has been trading for over 20 years and boast extensive knowledge of luxury design, functionality and style. We strongly believe that these elements are always included in every single product we produce and we're proud of the high level of care and quality that goes into each range.

Each of our collections include a variety of contemporary and timeless designs of bathroom furniture, taps, accessories, mirrors, lighting, showers, basins and WC's in a wide variety of colours, materials and finishes.

Our highly skilled in-house research and development team work around the clock to be ahead of the trends and allow Calypso to be at the forefront of the industry. Everything from our carefully selected colour palettes to each original wood finish is chosen to reflect the current demands and styles of our customers.

Our Ethical and Environmental Responsibility

Here at Calypso, we take our environmental responsibility extremely seriously and are always looking to update our operations so our company can become more environmentally-friendly.

Our environmental policies ensure that we seek to minimise our environmental impact as much as possible.

As part of our efforts for a more sustainable future, all packaging is sourced through FSC (Forestry Stewardship Council) accredited mills, whilst each brochure is manufactured from sustainable and audited sources. In addition, all of the timber used within our products is from FSC accredited suppliers. We invest heavily in sourcing the most modern and eco-friendly vehicles throughout our delivery fleet to ensure we are operating on a minimal carbon footprint.

Why choose Calypso?

Whether your bathroom is large or small, Calypso bathroom furniture offers the flexibility and versatility you need to create the perfect space.

PRODUCTS

Part of the Calypso ethos is to ensure we pursue continuous improvement in every sector of the business. Our products are a true representation of the high standards we set when it comes to quality.

Our in-house design and testing team conduct thorough research and development techniques so we can produce the best possible products in the market. From initial design to distribution, we ensure the highest level of care and quality, so you're guaranteed complete product satisfaction.

SOFT CLOSE

An essential part of our ranges is the soft closure on all of our doors and drawers. We listen to our customers and firmly believe in the added luxury that a quiet smooth soft close drawer and toilet seat provides.

DELIVERY SERVICE

We can confidently say that we boast a minimum of 99% stock holding in our 70,000 square foot distribution centre. This allows us to offer the shortest Order-to-Delivery time in the industry with all our orders dispatched within 72 hours.

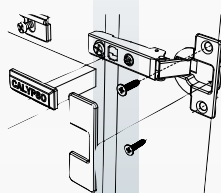

All of our deliveries are undertaken on our own Calypso vehicles to ensure our policy of complete customer satisfaction is fulfilled on time and in the best possible condition.

HELP & ADVICE

For further information, you can see the latest product updates on our website as well as order a free sample of each of our finishes. Additionally, our furniture is available to view in over 800 bathroom retailers across the UK, which you can find by visiting the 'Find a Retailer' page on our website.

All orders are subject to our standard terms and conditions of sale which can be found at www.calypsobathrooms.co.uk/downloads

BATHROOM FURNITURE

Here at Calypso, our very own team of design experts make sure that every product in the Calypso Fitted Furniture range adheres to the highest standards of functionality and design.

Our continuous aim for outstanding customer service is backed up by exceptional stock levels and our own expert delivery fleet. Our very own team of logistics experts make sure that each item is carefully packaged and distributed, so you can create your dream bathroom space without having to wait.

OUR GUARANTEE

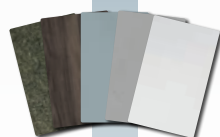

Even after installation, we offer a 5-year guarantee policy on all of our products to ensure you are completely satisfied with your finished design.

FINDING YOUR LOCAL RETAILER

Calypso bathroom furniture is sold in over 800 trusted retailers nationwide, so you're never too far away from our fantastic products and expert advice.

To find your closest retailer and showroom, visit www.calypsobathrooms.co.uk/find-a-retailer/ and our expert partners will help you with the planning and installation of your new bathroom furniture.

FREE SAMPLE SERVICE

We understand that it's not easy picking a furniture colour without seeing the final product.

That's why we operate a FREE 24-hour sample service so you can view each finish and range from the comfort of your home.

To order from our wide range of samples, please visit www.calypsobathrooms.co.uk/request-a-sample/ or get in touch with our Sales team on 01432 367367.

Please note: Certain images within this brochure are created by CAD and may not represent the true colour of a product. We urge you to take full advantage of our sample service before ordering your furniture, so you're guaranteed full product satisfaction from your order.

A hard copy of our terms and conditions is available on request by calling us on 01432 367 367 or emailing your request to sales@woodstockco.com

CAST BASIN

The core ingredient of our Cast Marble basin is Dolomite Marble which is created through volcanic action. The rock is milled and purified before being mixed with polymer resin to form the basin shape, then coated with a resin and quartz mixed gel coat to save its pigment and smooth finish.

This method means it is extremely durable and easy to maintain, coupled with the benefit of a long-lasting smooth finish that cannot be matched by traditional ceramics. Scratches are also repairable making this a more forgiving option.

GLASS BASIN

Glass basins are perfectly formed and benefit from being naturally anti-bacterial. They are a durable alternative to standard basins and are comparable in strength. With no overflow on these basins, they have a minimal clean sleek look.

There are two points which could cause fracture or breakage to glass basins. Firstly, if there is a thermal shock from a sudden temperature change of more than 20°C, ambient room temperature should be maintained around 16 - 23°C. Secondly, you must avoid pouring hot water over 48°C into a glass basin. The waste assembly must be hand-tightened only.

GLASS BASIN

Glass basins are perfectly formed and benefit from being naturally anti-bacterial. They are a durable alternative to standard basins and are comparable in strength. With no overflow on these basins, they have a minimal clean sleek look.

There are two points which could cause fracture or breakage to glass basins. Firstly, if there is a thermal shock from a sudden temperature change of more than 20°C, ambient room temperature should be maintained around 16 - 23°C. Secondly, you must avoid pouring hot water over 48°C into a glass basin. The waste assembly must be hand-tightened only.

CAST BASIN

The core ingredient of our Cast Marble basin is Dolomite Marble which is created through volcanic action. The rock is milled and purified before being mixed with polymer resin to form the basin shape, then coated with a resin and quartz mixed gel coat to save its pigment and smooth finish.

This method means it is extremely durable and easy to maintain, coupled with the benefit of a long-lasting smooth finish that cannot be matched by traditional ceramics. Scratches are also repairable making this a more forgiving option.

WHAT IS A RIMLESS PAN?

Traditional toilets distribute the flush-water through a series of holes around the underside of the rim of the pan. However, the 'Rimless' pan does away with this under-rim, meaning the water can flow faster and with no hindrance to creating an enhanced flush.

The rimless toilet looks no different on the outside. The main difference is that the pan boasts a smooth bowl with no areas for bacteria or lime-scale to build up and settle, which makes a significant difference for cleaning and improved hygiene compared to traditional pans.

COMFORT HEIGHT WC SETS

WHAT IS COMFORT HEIGHT?

The difference between a Comfort Height WC (also known as the Right Height WC) and a standard WC is the ceramic pan which varies around 430mm to 480mm high, compared to the 380mm to 400mm height of a standard WC.

One reason being that people are now, on average, around 110mm taller than they were when the flushing toilet was first introduced in the UK in the 1880s. As well as taller people, Comfort Height pans are suited to elderly people who may have more restricted movement.

Supplied with 12v LED Driver.

Water and electricity are a dangerous combination. So when choosing bathroom lights, it is essential that you familiarise yourself with two terms; Bathroom Zones and IP Ratings. When purchasing bathroom lights, you need to ensure that the fitting you choose has the relevant IP rating for the Zone in which it is to be placed. So what are IP Ratings and Bathroom Zones?

IP Rating 1st Digit			IP Rating 2nd Digit		
	Object Size	Protected against		Protected against	Tested for
0	-	No protection.	0	-	No protection
1	>50 mm	Protection against any large surface area of the body but not deliberate tampering or force.	1	Dripping water	Dripping water – no damaging effect when tested against vertical falling water drops.
2	>12.5 mm	Fingers or similar sized tools and objects.	2	Dripping water when tilted up to 15°	Vertically dripping water has no damaging effect when the light enclosure is tilted at an angle up to 15° from its usual position.
3	>2.5 mm	Thick wires, tools and similar-sized foreign bodies.	3	Spraying water	Water falling as a spray at any angle up to 60° has no damaging effect.
4	>1 mm	Most wires, screws, etc.	4	Splashing water	Water splashing against light enclosure from any direction has no damaging effect.
5	Dust protected	Protected against dust, allowing limited ingress. (no harmful deposit)	5	Water jets	Water projected by a nozzle (6.3mm) against light enclosure from any direction shall have no damaging effect.
6	Dust tight	Dust tight. No ingress of dust.	6	Powerful water jets	Water projected in powerful jets (12.5mm nozzle) against the light enclosure from any direction has no damaging effect.
			7	Immersion up to 1m	Water won't infiltrate even when light enclosure is immersed in water up to 1m in depth. Duration of upto 30 minutes.
			8	Immersion beyond 1m	The equipment is suitable for continuous immersion in water under. Conditions specified by the manufacturer.

IP 67 IP67. The item is protected from dust and capable of withstanding water immersion upto 1 meter for 30 minutes.

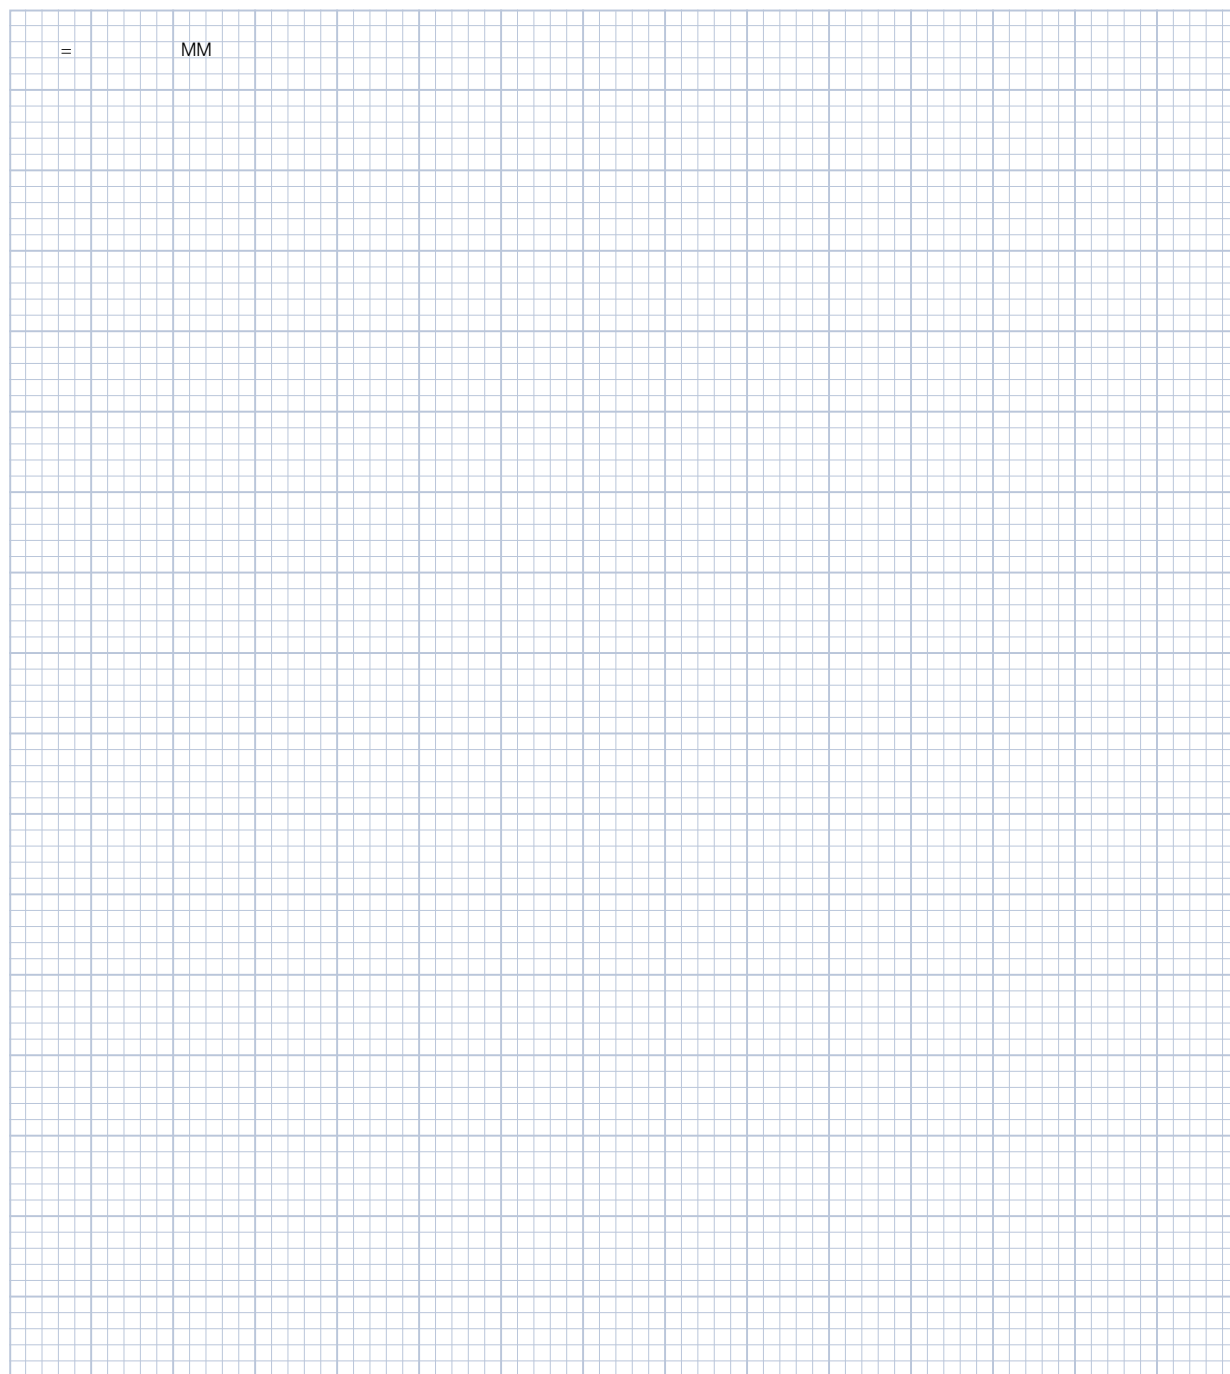

ZONE 0 Covers the areas inside the bath or shower tray. If you decide to illuminate this area the fittings must be low voltage and must have a minimum rating of IP67 making them immersion proof.

ZONE 1 Incorporates the area directly above the bath or shower tray to a height of 2.25m from the floor. A light with a minimum IP44 rating is required for this area. If the light uses a 240V supply, a 30ma RCD (residual current device) must be used to protect the circuit in this zone.

ZONE 2 Covers the area 0.6M outside the bath's perimeter and to a height of 2.25M from the floor. As with Zone 1, a minimum IP44 rating is required for this area.

ZONE 3 Outside zones cover areas which fall outside of zones 0,1 and 2 and are well away from any contact with water. No IP ratings are required for light fittings in this area.

CALYPSO • PLANNING

IMPORTANT NOTES

It is important when ordering and booking installations that sufficient time is allowed between delivery and installation dates for the checking of goods and the re-delivery of any rejected or damaged items.

Should you require spare or replacement parts for these products, please call our customer service department.

Stocked orders are dispatched within 72 hours from receipt of order.

All units are supplied assembled.

Prices in this brochure include VAT at 20%.

All electrical accessories must be installed in accordance with the latest IEE wiring regulations.

PRODUCT NOTES & SPECIFICATIONS

Product Finishes – Please note that some imagery within the brochure are CAD generated and may not reflect the unit exactly. Woodstock recommend that any questions relating to detail of the units are asked prior to ordering.

Units – All Vanity and Wall Units are supplied pre-assembled with hinges, wall hanging kit and fittings. Unit sizes given are overall dimensions including fascias.

Cast Basins (Gloss) – All cast basins are made from a mineral powder/polyester resin. The surface is protected by gelcoat which is at least 0.5mm in thickness. Clean and care for your top with a normal liquid detergent (do not use detergents containing abrasives) and buff with a good quality polish to keep your cast top in excellent condition.

Cast Basins (Matt) – All cast basins are made from a mineral powder/polyester resin. The surface is protected by a technical coating film. Clean and care for your top with a normal liquid detergent (do not use detergents containing abrasives).

RETURNS POLICY

Any damaged or unwanted items must be reported within 7 days and made available for collection within 28 days. Any items ordered and delivered in good faith but no longer required will be subject to a 25% handling and re-stocking charge.

Non-required items can only be accepted for return if:

- They are returned in original packaging.
- They have not been fitted in any way (this would include legs fitted onto carcasses).
- They are in re-saleable condition.

Picking, delivery errors and manufacturing defects must also be reported within 7 days and made available for collection within 28 days.

Credit will be given once the goods are received back, inspected and signed off.

Any good under this policy should be returned to the retailer that they were purchased from.

Credit Approval or Refusal:

Once returned goods are received and inspected as per terms above, credit will either be approved or refused. If refused, a credit refusal number is assigned and a written reason given and sent by fax or email. Goods will then be held for 7 days before disposal. Any query regarding the refusal must be logged during this 7 day period.

TAKING CARE OF YOUR CALYPSO PRODUCTS

By following some simple care and cleaning guidelines, Calypso products can be expected to give many years of enjoyable, trouble-free service.

Calypso bathroom furniture is designed to be used within domestic environments. As with all timber products, adequate ventilation is key and your bathroom furniture will be adversely affected if subject to excessive moisture on the surface or in the atmosphere. It is strongly recommended that a suitable bathroom extractor fan is installed to prevent condensation building up and to prevent damage to the furniture.

Calypso timber based fitted furniture must never be installed in a wetroom situation.

It is most important that any cut or exposed panel edges or any floor or wall abutment with furniture or sanitaryware must be sealed with a waterproof sealant such as silicone or similar to avoid the possibility of water ingress and damage.

All water spills and sprays must be wiped clean and mopped dry immediately to prevent water marks or other damage.

Never use chemical or abrasive cleaners, bleach or furniture polishes on any bathroom furniture as the finish can be affected. Clean only with a soft damp cloth and a mild soap solution as necessary.

Solid Oak is a very hard-wearing material and over time, can face changes to its appearance. Occasional application of a wax-based furniture polish should be all that is needed to maintain its finish.

However, DO NOT USE household cleaners or abrasive powders on oak, and remove any spills or stains immediately with a soft damp cloth and mild detergent (washing-up liquid). Excessive moisture or water spills will darken the oak surface.

CERAMIC SANITARYWARE - Clean with a damp cloth and warm soapy water. Rinse with clean water and polish with a soft cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

BRASSWARE - Clean with a damp cloth, rinse clean and polish with a dry cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

DIMENSIONAL TOLERANCE - Due to the nature of materials and production processes, dimensions may vary within a tolerance of $\pm 2\text{mm}$ on furniture, $\pm 3\text{mm}$ on cast basins and $\pm 5\text{mm}$ on ceramic.

COLOUR REPRODUCTION - Colour reproduction is as accurate as possible within the limitations of the printing process. A free sample service is provided if you are unsure about the finish on your selected product. Please call our Customer Success team on 01432 367 367 to order or visit our website. Also note, colours will vary under artificial light.

Our company policy is one of continual improvement and development. We therefore reserve the right to alter materials and specifications without notice.

All orders are subject to our standard terms and conditions of sale which can be found at
www.calypsobathrooms.co.uk/downloads

A hard copy of our terms and conditions is available on request by calling us on 01432 367 367 or emailing your request to sales@woodstockco.com
